PROJECT

QR Attendance Management System

Technologies: React.js, Node.js, Express.js, MS SQL Server, JWT, REST APIs, HTML5, CSS3

- Developed a full-stack QR code-based attendance system for automated student check-in/check-out and real-time attendance tracking.
- Built secure REST APIs using Node.js and Express.js with JWT authentication, QR validation, and MS SQL Server integration.
- Designed a responsive React.js dashboard for QR generation, attendance management, search, filtering, and reporting.

PromptCatalyst

Technologies: React.js, HTML5, CSS3, Node.js, Express.js, Gemini LLM, REST APIs

- Built a Chrome extension that uses the Gemini API to optimize user prompts for multiple AI models.
- Developed a responsive React.js frontend and Node.js/Express.js backend connected through REST APIs.
- Implemented model selection, prompt optimization, and one-click copy functionality to improve user workflow.
- Deployed the frontend on Vercel and the backend on Render with environment variables, CORS configuration, and API integration.
